International Presence

We operate globally, with established offices in the UAE and Canada, and a strong presence in the USA and Panama. You get support that understands cross-border regulations, reporting requirements, and international business structures.

Trusted by Clients

Years of experience, strong ratings, and steady results. Our clients stay because our work is clear, accurate, and reliable.

Shebin

Bestax has been an invaluable partner since we set up our business in Dubai. From day one their team was professional, responsive and genuinely invested in our success. What sets them apart is how they handle everything with the same level of precision and care. **I never have to chase them. They are always ahead of it.**

Sarah Mitchel

I've worked with several accounting firms before but Bestax is in a different league. The team is sharp, they communicate clearly and they actually explain things in a way that makes sense. **Every deadline is met, every question is answered and you never feel like just another client.** If you are running a business in the UAE you need a team like Bestax in your corner.

Laura Cole

Three years with Bestax and I have never once had to worry about a missed deadline or a compliance issue. **They understand the local requirements and they also understand the bigger picture when your business operates across borders.** The professionalism here is consistent across every single interaction. That is rare and I value it greatly.

A Note on Confidentiality:

Our **portfolio includes several of the world's largest multinationals** and **Leading UAE enterprises**. In line with our confidentiality obligations, we do not publish client names or logos. Verified references available on request.

Haseeb Hamdani

Lead Advisor

FCCA | UAE-CA | FTA Approved Tax Agent

With over a decade of cross-border experience spanning the UAE, Canada, and beyond, Haseeb Hamdani leads Bestax team of qualified professionals with one clear goal, to make sure your business is compliant, protected, and positioned to grow. His international credentials and real world expertise across tax, compliance, and business structuring mean clients always receive precise, reliable, and commercially sound financial guidance.
